Further measures and recommendations:

1 **Limitation of participants at private parties**
For private parties in public or rented rooms:
Limitation of the number of persons to a maximum of 25 participants.
For parties in private rooms:
Urgent recommendation to limit the number of persons to a maximum of ten.

2 **Wearing a face mask in private vehicles**
When jointly using a vehicle, persons from different households are strongly recommended to wear face masks.

3 **Religious services and get-togethers**
All religious communities that do not yet have a hygiene concept, are recommended to apply the general social distancing and hygiene regulations and to take care that community members adhere to these regulations.

i **Important information regarding face masks**
Chin shields are not an alternative to face masks (covering nose and mouth).
The exception to wear a plastic face shield as provided in the Federal Degree of Hesse does not include chin shields.
From an infectiological point of view, plastic face shields are also not equivalent to a face mask and should therefore only be used, e.g. when for medical reasons the wearing a face mask is not possible.
